

PerfCap continues Long Term Relationship with Microsoft

Microsoft renews certification of PAWZ family of products

Nashua, NH – Sept 22, 2011 – PerfCap Corporation, the leading provider of automated performance management and capacity planning software for the IT industry, today announced renewal of its Certified Partnership with Microsoft based upon certification of PAWZ family of products. This relationship enhances PerfCap’s ability to provide the most comprehensive solutions for performance and capacity planning management of Microsoft platforms using the latest technology. Customers will continue to be able to reap the benefits of this relationship with tighter integration of the PerfCap PAWZ and FindIT solutions with Microsoft products.

PAWZ is PerfCap’s premier performance and capacity management software solution. PAWZ simplifies the often challenging task of managing the performance of computer systems and applications in today’s distributed, heterogeneous environment. It meets the challenges that IS managers face by allowing them to visualize the performance, capacity and risk status of all of their servers and applications in a single view. PAWZ provides realistic capacity planning even with limited historical business forecasts by going beyond the simple trending projections to forecasting actual systems responsiveness based upon sophisticated algorithms that reflect end-user satisfaction all while easily scaling to manage 10s to 10,000s of servers.

FindIT is a web-based, enterprise level Asset Management and Configuration Change Tracking Software product. It provides centralized and automatic inventory control of system hardware, software and licenses. FindIT’s flexible design allows users to track and report non-discoverable fixed assets such as hand held devices, mobile phones, printers, fax machines etc. Assets can be grouped by their location, department, project and/or owner. Additionally, they may be assigned predefined or custom properties.

“The extension of this long term relationship gives our customers the confidence that our products meet the high standards of performance necessary to provide the most comprehensive and accurate performance and capacity management solution in the market today” said Prem Sinha, CEO of PerfCap.
